SUMMARY

Front-End Developer with extensive experience in React and TypeScript, specializing in building responsive, accessible and performant web applications. Proven ability to translate mockups and design systems into production-quality UI, optimize performance (Lighthouse) and SEO. Eligible to work in the United States or Canada and experienced in collaborating remotely with distributed teams across multiple time zones.

SKILLS

PROGRAMMING LANGUAGES: HTML, CSS, JavaScript (ES6), TypeScript, PHP, C, C++, C#, Java, Python
FRONT-END: React, Next.js, SASS/SCSS, Tailwind, jQuery, WordPress (WooCommerce), Vite
BACK-END: Node.js (NPM), Express.js, Strapi, REST APIs, EJS, MVC Architecture
DATABASES: MySQL, MongoDB (Atlas), PostgreSQL (Neon)
CLOUD/DEPLOYMENT: AWS EC2, Vercel, Render
OTHER: Git, GitHub, CMS Integration, Stripe, Shopify, Android Studio
SOFT SKILLS: Collaboration, Problem-Solving, Attention to Detail, Agile Workflow, Adaptability, Analytical Thinking, Team Player

WORK EXPERIENCE

PROJXON, Web Developer — Mar 2025-present
Part-Time — *Remote*

- Built and maintained responsive React/Next.js applications integrated with RESTful APIs and headless WordPress backends.
- Improved UX through responsive layouts, semantic HTML, and component-based architecture aligned with scalability and maintainability standards.
- Participated in Agile sprints, code reviews, and iterative development to ensure feature quality and delivery efficiency.

DataAnnotation, AI Trainer — May 2024-Aug 2025
Part-Time — *Remote*

- Used Python, JavaScript, and C++ to train and optimize AI models, improving contextual accuracy and performance.
- Built structured datasets (CSV, JSON, XML) and validation pipelines to support reliable model evaluation.
- Strengthened skills in data validation, prompt testing, and analytical model evaluation, contributing to iterative product improvement.

Lakehead Public School Board, Work Placement — Mar 2019-May 2019
Temporary Full-Time — *Thunder Bay, ON*

- Designed and implemented custom WordPress themes with responsive design and accessibility standards.
- Integrated plugins and created reports (JasperSoft) to improve administrative efficiency.
- Ensured cross-browser compatibility and consistent UX across multiple school sites.

PROJECTS

Momentum Internship Program — Link ● GitHub — Sep 2025-Oct 2025

- Built a React/Tailwind/Vite front-end integrated with a Node.js/Express backend and WordPress REST API.
- Created reusable React hooks for fetching content, enhancing maintainability and performance.
- Implemented a contact form with validation, optimized data flow, and enforced DRY principles.

Zephyr Aero Leather — Link ● GitHub — Mar-Jun 2025

- Developed a Next.js e-commerce site with Stripe integration and headless WooCommerce backend.
- Used Context API for user sessions and order history, improving checkout flow and engagement.
- Collaborated with UI designers to deliver polished, brand-consistent front-end experiences.

PROJXON Website — Link ● GitHub — Mar 2025-May 2025

- Migrated company site from React to Next.js, improving performance by 17% and SEO by 8%.
- Deployed scalable architecture on AWS EC2 with automated build pipelines.
- Implemented incremental static regeneration (ISR) for hybrid rendering and faster load times.

EDUCATION

University of Windsor — BSc, Computer Science — Sep 2021-Apr 2024
Windsor, ON

Confederation College — AS, Computer Programming — Sep 2017-Apr 2019
Thunder Bay, ON

CERTIFICATIONS

Ultimate AWS Certified Developer — In progress
