SUMMARY

Front-End Developer specializing in React, TypeScript, and modern UI development with production deployments on AWS and Vercel. Proven experience building responsive, accessible, and performant applications integrated with REST APIs and headless CMSs. Experienced across REST APIs, TypeScript, Tailwind, and MySQL. Seeking a Full-Stack role to build performant, accessible, and scalable web apps.

SKILLS

PROGRAMMING LANGUAGES: HTML/CSS, JavaScript/TypeScript/ES6, PHP, C++, C#, Java, Python

FRONT-END: React, Next.js, SASS/SCSS, Tailwind, jQuery, WordPress/WooCommerce, Vite

BACK-END: Node.js/NPM, Express.js, Strapi, REST APIs, EJS, MVC Architecture

DATABASES: MySQL, MongoDB/Atlas, PostgreSQL/Neon

CLOUD/DEPLOYMENT: AWS EC2, Vercel, Render

OTHER: Git/GitHub, CMS Integration, Stripe, Android Studio

SOFT SKILLS: Collaboration, Problem-Solving, Attention to Detail, Agile Workflow, Adaptability, Analytical Thinking, Team Player

WORK EXPERIENCE

| | |
|---|------------------------|
| PROJXON , Web Developer | Mar 2025-present |
| <i>Part-Time</i> | <i>Remote</i> |
| <ul style="list-style-type: none">Build and maintain responsive React/Next.js applications integrated with RESTful APIs and headless WordPress backends.Improved UX through responsive layouts, semantic HTML, and component-based architecture aligned with scalability and maintainability standards.Participate in Agile sprints, code reviews, and iterative development to ensure feature quality and delivery efficiency. | |
| DataAnnotation , AI Trainer | May 2024-Aug 2025 |
| <i>Part-Time</i> | <i>Remote</i> |
| <ul style="list-style-type: none">Used Python, JavaScript, and C++ to train and optimize AI models, improving contextual accuracy and performance.Structured data pipelines (CSV, JSON, XML) for clean integration and testing.Strengthened skills in data validation, prompt testing, and analytical model evaluation, contributing to iterative product improvement. | |
| Lakehead Public School Board , Work Placement | Mar 2019-May 2019 |
| <i>Temporary Full-Time</i> | <i>Thunder Bay, ON</i> |
| <ul style="list-style-type: none">Designed and implemented custom WordPress themes with responsive design and accessibility standards.Integrated plugins and built reporting dashboards (JasperSoft) to improve administrative efficiency.Ensured cross-browser compatibility and consistent UX across multiple school sites. | |

PROJECTS

| | | |
|---|---|-------------------|
| Momentum Internship Program | https://momentuminternshipprogram.com/ | Sep 2025-Oct 2025 |
| <ul style="list-style-type: none">Built a React/Tailwind/Vite front-end integrated with a Node.js/Express backend and WordPress REST API.Created reusable React hooks for fetching content, enhancing maintainability and performance.Implemented a contact form with validation, optimized data flow, and enforced DRY principles. | | |
| Zephyr Aero Leather | https://zephyraero leather.com/ | Mar-Jun 2025 |
| <ul style="list-style-type: none">Developed a Next.js e-commerce site with Stripe integration and headless WooCommerce backend.Used Context API for user sessions and order history, improving checkout flow and engagement.Collaborated with UI designers to deliver polished, brand-consistent front-end experiences. | | |
| PROJXON Website | https://www.projxon.com/ | Mar 2025-May 2025 |
| <ul style="list-style-type: none">Migrated company site from React to Next.js for better SEO, SSR, and page performance.Deployed scalable architecture on AWS EC2 with automated build pipelines.Implemented incremental static regeneration (ISR) for hybrid rendering and faster load times. | | |

EDUCATION

| | | |
|------------------------------|--------------------------|------------------------|
| University of Windsor | BSc, Computer Science | Sep 2021-Apr 2024 |
| GPA: 82 | | <i>Windsor, ON</i> |
| Confederation College | AS, Computer Programming | Sep 2017-Apr 2019 |
| GPA: 90 | | <i>Thunder Bay, ON</i> |
