## WORK HISTORY

**PROJXON** - Web Developer                          Mar 2025-Present
*Remote · Part-Time*
- Developed responsive, cross-browser compatible websites using React, Next.js and headless WordPress.
- Enhanced user experience by implementing responsive web design and optimizing website performance.
- Contributed to agile sprints and participated in weekly meetings, resulting in improved team collaboration and project delivery timelines.

**DataAnnotation** - AI Trainer                          May 2024-Present
*Remote · Part-Time*
- Trained and optimized chatbot models using Python, JavaScript, and C++, improving response accuracy and user engagement.
- Created structured datasets (CSV, JSON, XML) for AI response evaluation, enhancing data analysis and model performance.
- Rated and refined model outputs for accuracy and coherence, ensuring high-quality AI interactions and user satisfaction.

**Lakehead Public School Board** - Work Placement          Mar 2019-May 2019
*Thunder Bay, ON · Temporary Full-Time*
- Designed and implemented around 5 custom WordPress themes for school websites.
- Integrated plugins into websites to enhance site usability and functionality.
- Created JasperSoft reports to enhance the streamline reporting process.

## PROJECTS

**Trail Map Report** - WordPress Developer                     Jul 2025
*WordPress | Node.js | jQuery | SASS/SCSS | AWS EC2 | Lighthouse*
- Created a simple WordPress site where users can set trails as either open or closed and deployed site on EC2-trailmapreport.simeondavenport.com.
- Used Contact Form 7 for form and enhanced styling and JavaScript using jQuery and SCSS.
- Streamlined development and enhanced responsiveness using NPM packages for tooltip shrinking with area map and concurrent scripts running.

**Zephyr Aero Leather** - Full Stack Developer          Mar 2024-Jun 2024
*Next.js | React | Tailwind | TypeScript | WordPress | WooCommerce | Stripe*
- Worked on the front end and back end of an e-commerce site for PROJXON-zephyraeroleather.com.
- Integrated Stripe payment and fully synced site to a headless WooCommerce.
- Added various features to enhance functionality including an order history page.

**PROJXON Website** - Front End Developer          Mar 2025-May 2025
*Next.js | React | Tailwind | Bootstrap | WordPress | TypeScript | AWS EC2*
- Migrated site from vanilla React to Next.js to improve SEO, and later from JavaScript to TypeScript for type safety.
- Enhanced site performance by implementing SSR, SSG and ISR on front-end.
- Deployed live site-www.projxon.com-using AWS EC2 and maintained redeployment with new changes.

## CERTIFICATIONS

- **Ultimate AWS Certified Developer** - In progress
