SUMMARY

Software Developer with experience building and maintaining web applications using React, Next.js, JavaScript, TypeScript, PHP, and SQL-based databases. Skilled in developing responsive user interfaces, integrating REST APIs, supporting backend systems, and deploying applications on AWS. Experienced working across front-end and back-end technologies, troubleshooting technical issues, and collaborating in agile environments. Strong self-learner with a passion for delivering scalable, reliable software solutions.

SKILLS

PROGRAMMING LANGUAGES: HTML5, CSS3, JavaScript (ES6), TypeScript, PHP, C, C++, C#, Java, Python

FRONT-END: React, Next.js, SASS/SCSS, Tailwind, jQuery, WordPress (WooCommerce), Vite

BACK-END: Node.js (NPM), Express.js, Strapi, REST APIs, EJS, MVC Architecture

DATABASES: MySQL, MongoDB (Atlas), PostgreSQL (Neon)

CLOUD/DEPLOYMENT: AWS EC2, Vercel, Render

OTHER: Git, GitHub, CMS Integration, Docker (familiarity), Stripe, Shopify, Android Studio

SOFT SKILLS: Attention to Detail, Eager to Learn, Problem-Solving, Agile Workflow, Adaptability, Analytical Thinking, Team Player

WORK EXPERIENCE

PROJXON, Web Developer

Mar 2025-present

Part-Time

Remote

- Built and maintained responsive React/Next.js applications integrated with RESTful APIs and headless WordPress backends.
- Improved UX through responsive layouts, semantic HTML, and component-based architecture aligned with scalability and maintainability standards.
- Participated in Agile sprints, code reviews, and iterative development to ensure feature quality and delivery efficiency.

DataAnnotation, AI Trainer

May 2024-Aug 2025

Part-Time

Remote

- Used Python, JavaScript, and C++ to train and optimize AI models, improving contextual accuracy and performance.
- Built structured datasets (CSV, JSON, XML) and validation pipelines to support reliable model evaluation.
- Strengthened skills in data validation, prompt testing, and analytical model evaluation, contributing to iterative product improvement.

Lakehead Public School Board, Work Placement

Mar 2019-May 2019

Temporary Full-Time

Thunder Bay, ON

- Designed and implemented custom WordPress themes with responsive design and accessibility standards.
- Integrated plugins and created reports (JasperSoft) to improve administrative efficiency.
- Ensured cross-browser compatibility and consistent UX across multiple school sites.

PROJECTS

Trail Map Report

[Link](#) • [GitHub](#)

Jul 2025

- Developed and deployed a WordPress site on AWS EC2 allowing admins to update trail statuses dynamically.
- Used Contact Form 7 with custom styling and JavaScript enhancements.
- Enhanced UX with custom JavaScript, tooltips, and mobile responsiveness.

Zephyr Aero Leather

[Link](#) • [GitHub](#)

Mar-Jun 2025

- Developed a Next.js e-commerce site with Stripe integration and headless WooCommerce backend.
- Used Context API for user sessions and order history, improving checkout flow and engagement.
- Collaborated with UI designers to deliver polished, brand-consistent front-end experiences.

PROJXON Website

[Link](#) • [GitHub](#)

Mar 2025-May 2025

- Migrated company site from React to Next.js, improving performance by 17% and SEO by 8%.
- Deployed scalable architecture on AWS EC2 with automated build pipelines.
- Implemented incremental static regeneration (ISR) for hybrid rendering and faster load times.

EDUCATION

University of Windsor

BSc, Computer Science

Sep 2021-Apr 2024

Windsor, ON

Confederation College

AS, Computer Programming

Sep 2017-Apr 2019

Thunder Bay, ON

CERTIFICATIONS

Ultimate AWS Certified Developer

Sep 2026
